

MOLEY®-KOMBI

Automatic Roll Slitting Machine

MOLEY®-KOMBI 500/2300

Click-bearings with brake,
meter counter and foot-pedal

With MOLEY® it's always a premium cut!

MOLEY®-KOMBI

Automatic roll slitter with integrated winding device.

The classic roll cutting machine in combination with a winding device – the synthesis of rewinding and cutting machine.

Intelligent use of the most advanced engineering methods ensures maximum operating comfort and working safety.

For winding and cutting or just rewinding (wrapping), rolling off particular lengths, change sides of fabric or change of cardboard core, alteration of winding tension.

- Electrics according to Euronorm EN 60204/1
- Programmable Logical Controls - Type Siemens S7
- Construction/execution conforming to Eurostandard “CE”
- Full compatibility of cutting tools within the entire MOLEY® range
- Safety click-bearings for wind-off shaft, with edge control and meter counter
- Winding tension by diverter shaft with brake function
- Winding speed continuously adjustable
- Working width: 1200 to 3200 mm - as required
- Max. wind-up diameter / roll diameter to be cut: 480 mm (assuming core Ø_i 76 mm and use of straight MOLEY®-Knife)
- Dimensions (approx - for working width 1600 mm):
ca. length 4,60 x width (depth) 1,90 x height 2,00 m
Weight: ca. 1100 kg
- Operating voltage: 400 V - 3 PE - 50 Hz – 20/25 A
compressed air: 6-7 bar
